Returned Check Fee:		Rush Fee:	
Late Payment Fee:			

Balance Transfers – We may permit you to transfer the balance of an account that you owe to another creditor to your account with us. If we approve a balance transfer, finance charges will be calculated and will accrue according to the same method as for Cash Advances.

Variable Rate: The Interest Rate for purchases, cash advances, and balance transfers is subject to change and is based on an Index rate plus additional percentage points, called the "Margin". The variable interest rate is calculated by adding the current index value to the margin.

The index for your account is the highest U.S. Prime Rate as published in "Money Rates" table of The Wall Street Journal on the Third Tuesday of each month and will change on the first day of the second billing cycle following the Index publication date.

If this Index ever becomes unavailable, the credit union will choose a new Index which is based upon comparable information.

The Margin may be different for purchases, cash advances, balance transfers and any penalty rate. The Margins and Interest Rate applicable to your account are disclosed in this Addendum and may be subject to minimum and maximum Interest Rates. In any case the Interest Rate will never be greater than the maximum amount permitted by law. Any increase in the Interest Rate will take the form of additional payments.

Method for Computing the Balance for Purchases: Average Daily Balance Including New Purchases

Late Payment Fee. \$ 25.00 when minimum payment is not made by payment due date.

Minimum Payment. Your monthly payment will be 2.50 % of your total new balance or \$25.00, whichever is greater plus outstanding unpaid fees and charges, all prior unpaid payments and any amount that exceeds your credit limit.
